

Hi.World Health Insurance

Insurance for loss of earnings abroad

The tariff EKT/Group provides an ideal addition for your international health insurance.

Daily sickness allowance abroad

With the daily sickness allowance your income in case of illness during your stay abroad is secured. Our individual waiting periods allow us to flexibly adjust to your needs. Thus, this additional tariff module complements your insurance coverage in an ideal way.

What to expect from us

- Coverage of up to 100 % of your net income:
With the daily sickness allowance, the maximum insurable amount is your net salary from your professional activity, broken down to the calendar day. Other daily sick benefits are to be considered.
- Flexible composition in accordance with the continued pay from day 43 to day 365 of illness.
- Duration of payment of the daily sickness allowance up to 26 weeks:
The insured daily sickness allowance will be paid for a maximum of 26 weeks per incapacity for work including Sundays and holidays, starting from the day of incapacity for work (can be longer if transportability is compromised). This is because stays abroad are mostly terminated in the event of long-term illness.

Furthermore, insurance cover is provided for temporary domestic stays of up to 3 months.

Please note that the extent of the individual benefits results from the terms of insurance. Your employer will keep those at hand for you.
