# Examination findings

This form of the findings must not be filled in by spouses, parents or children of the person to be examined.

Do you know the person to be examined?  yes  no      day of examination: \_\_\_\_\_

## 1. Findings of the denture

Upper jaw	right								left							
Requires treatment																
Finding																
	<b>18</b>	<b>17</b>	<b>16</b>	<b>15</b>	<b>14</b>	<b>13</b>	<b>12</b>	<b>11</b>	<b>21</b>	<b>22</b>	<b>23</b>	<b>24</b>	<b>25</b>	<b>26</b>	<b>27</b>	<b>28</b>
	WZ	BZ	BZ	BZ	BZ	EZ	SZ	SZ	SZ	SZ	EZ	BZ	BZ	BZ	BZ	WZ
	<b>48</b>	<b>47</b>	<b>46</b>	<b>45</b>	<b>44</b>	<b>43</b>	<b>42</b>	<b>41</b>	<b>31</b>	<b>32</b>	<b>33</b>	<b>34</b>	<b>35</b>	<b>36</b>	<b>37</b>	<b>38</b>
Finding																
Requires treatment																
Lower jaw	right								left							

**Finding:**

f = missing teeth (fehlende Zähne)  
 ) = space closure (Lückenschluss)  
 e = already replaced teeth (bereits ersetzte Zähne)  
 k = existing crowns (vorhandene Kronen)  
 b = existing bridge parts (vorhandene Brückenglieder)  
 g = tooth filling (gefüllter Zahn)

y = defective fillings (defekte Füllungen)  
 c = carious teeth - worth keeping (kariöse Zähne (erhaltungswürdig))  
 x = teeth not worth keeping (nicht erhaltungswürdige Zähne)  
 in = Inlay  
 im = Implant  
 o = tooth without morbid finding (Zahn ohne krankhaften Befund)

**Requires treatment:**

E = tooth to be replaced (zu ersetzender Zahn)  
 F = filling (Füllung)  
 K = crown (Krone)

### 1.a How do you judge the status of the denture? (Only to be answered if dentures already exist)

- a) its function :  fully functioning  
 small defects (reparation possible)  
 severe defects (need to be renewed)
- b) its status of care:  good  moderate  bad

### 1.b Is there a malposition?

no  yes

Is an orthodontic measure required?  no  yes

## 2. Periodontal finding

Upper jaw	right								left							
Bleeding with sounding <sup>1</sup>																
Depth of sounding <sup>2</sup>																
Grade of loose tooth <sup>3</sup>																
	<b>18</b>	<b>17</b>	<b>16</b>	<b>15</b>	<b>14</b>	<b>13</b>	<b>12</b>	<b>11</b>	<b>21</b>	<b>22</b>	<b>23</b>	<b>24</b>	<b>25</b>	<b>26</b>	<b>27</b>	<b>28</b>
	WZ	BZ	BZ	BZ	BZ	EZ	SZ	SZ	SZ	SZ	EZ	BZ	BZ	BZ	BZ	WZ
	<b>48</b>	<b>47</b>	<b>46</b>	<b>45</b>	<b>44</b>	<b>43</b>	<b>42</b>	<b>41</b>	<b>31</b>	<b>32</b>	<b>33</b>	<b>34</b>	<b>35</b>	<b>36</b>	<b>37</b>	<b>38</b>
Grade of loose tooth <sup>3</sup>																
Depth of sounding <sup>2</sup>																
Bleeding with sounding <sup>1</sup>																
Lower jaw	right								left							

1 bleeding with sounding: + = yes  
 - = no

2 depth of sounding: \* = deepest spot of sounding of 4 spots

3 grade of loose tooth: 0, I, II, III

**2.a Only to be answered in case of periodontopathy:**

How is the periodontopathy to be rated? Please tick the appropriate

International notation

- AP = Adult Periodontitis
- EOP = Early Onset Periodontitis
- NP = Necrotizing Periodontitis

Other \_\_\_\_\_

National notation

- = Periodontitis marginalis superficialis
- = Periodontitis marginalis profunda
- = Periodontitis juvenile

Other \_\_\_\_\_

Is a systematic periodontal therapy required?  
simple therapy?  surgical therapy?

no  yes

**3. Findings of the functioning:**

complaints of the temporomandi-  
bular joint?

no  yes

pains when chewing?

no  yes

popping of the TMJ when chewing?

no  yes

Craniomandibular dysfunction?

no  yes

mouth opening:

< 40 mm

> 40 mm

central occlusion:

yes

no

= central relation

(Diff. up to 1 mm) (Diff. > 1 mm)

**4. Prognosis:**

Which treatment measures are probably required for the making up of the health of mouth/teeth and jaws?

- a) surgical dental treatment  no  yes
- b) conservative dental treatment  no  yes
- c) periodontal treatment  no  yes
- d) dentures/separate crowns/implants  no  yes
- e) orthodontic treatment  no  yes
- f) functional treatment  no  yes
- g) change of amalgam  no  yes
- h) other  no  yes

If so, which? \_\_\_\_\_
